

iHeartScan

Haemodynamic Echocardiography Assessment in Real Time

Designed for Anaesthetists, Intensive Care, Emergency Department Physicians and Surgeons who wish to learn Point-of-Care Ultrasound.

This two-day workshop will provide hands-on training in transthoracic echocardiography.

Core learning areas:

- Transthoracic imaging (PLAX, PSAX, Apical, Subcostal views)
- Haemodynamic state assessment including the measurement of cardiac output
- Basic assessment of valves using 2D and colour flow Doppler imaging
- iHeartScan examination
- iHeartScan reporting and examples

Cost: A\$1,400 inclusive of GST
(Catering provided for the 2 day workshop)

Venue: The Playford Hotel, Adelaide

Date: 4th & 5th October 2018

Convenience

Pre-reading delivered online. Study on iOS, Android & Windows devices or computer web browsers.

Reinforcement

Interactive tutorials and 20 online cases to practise interpretation.

Recognition

Completion certificate

Excellent introduction to echocardiography, I learnt a lot in just 2 days!

- iHeartScan Perth Participant

Great course and plenty of hands-on scanning. Friendly and knowledgeable tutors.
